

Board Mandate Vacancy

Women on Board's primary mission is to increase the consideration of women as candidate directors on the board of Belgian organisations and their active participation to these boards.

To be able to follow up with the progress made and measure improvement in gender diversity within the Belgian boards' environment, Women on Board requests your organisation to keep the WoB Association informed should they be electing a member of the Association to become a board member of their organisation.

- **Collaboration:** Women on Board will only be successful with the full collaboration of Enterprises and therefore strongly encourages them to communicate any idea or action in relation to the mission that may boost and promote the organisation and its mission. Their attention is brought to the possibility to support Women on Board more concretely by various Sponsoring formulas (*infra*).
